2025 Year in Review:

- The 2025 year started off with our new trash provider Ram Waste. We think this was a great move. This past year Republic Trash had monthly issues where at least once a month they had to miss pickup service due to "Driver constraints". One time they had to cancel the weekly pickup claiming they would accept addition trash if needed on the next scheduled pickup day.
- We noticed that the heater in the pump house broke down and needed to be replaced. This may have caused an issue with the System's water filter controller, and it too had to be replaced this spring during the start up.
- We had a lot of homeowners that had issues with weeds this past year. A pre-emergent could be applied in the early spring and could help a lot on weed growth. Weeds do need to be addressed on a regular schedule, and the pre-emergent could help you deal with explosive weed growth.
- During the startup of the HOA irrigation system, we found a lot of damage to the irrigation water lines due to the Xfinity/Comcast fiber optics install. They refused to make the repairs as they had promised at the start, so we had them fixed and sent them the bill which they refused to pay. The Board elected to turn it over to our attorney for collection, and long story short, we received payment for the repairs.
- We also had to replace a roof on one of our Well houses along the north sidewalk.

- During our analysis and work on the 2026 Budget, the Board felt very comfortable keeping our dues the same for the 2026 year. The Ram Waste contract saved us a lot of money, and we were able to operate 2025 without any huge unforeseen costs. Dues for 2026 will remain at \$720.00 or \$60.00 per month by ACH.
- The Zak George landscape contract came up for renewal this year and the Board voted to renew their contract for another 3 years based on the historic annual increases, basically reflecting cost of living increases.
- This year's fence project covered the fence along the north side of Stampede down and around onto Buffalo Creek Parkway to Crazy Horse. About 220 broken pickets were removed and replaced.
- This fall we removed about 20 dead and/or dying trees which will be replaced next spring. We know we will need to remove more trees come spring and are planning to get those replaced also.

Board Members: Michael Katalenic resigned his position a few months early this past year. He was very helpful on many issues that came before the Board, and he was missed this past fall. His term was up this year, and he needed to leave a few months early. We thank him for all the time he donated to the HOA. Also, John Mueller's term is up this year, and he will be done after the Annual Homeowners meeting in January 2026. John has been a great help to the running of the HOA. We thank both of these homeowners for taking time to help our HOA. We will have 2 Board positions open come January 2026. If you have an interest in getting involved as a Board Member and you would like more information on what is required, please contact our Management Company. If you want to be considered and, on the ballot, again, please notify our Manager.

Trash Removal: Ram Waste has asked that we put out a notice that trash cans should be placed out in the street drain area for collection day. HOA Guidelines allows homeowners to put out their trash cans the night before if needed, but all trash cans must be removed and stored out of sight that evening. Ram offers yard waste removal that you can set up with them.

2026 Possible Projects: Starting in the Spring of 2026 we will be removing a few more trees and planting new ones. We expect to plant 20 or more trees. We will also continue our fence maintenance program. We try to stain and repair 20% of the perimeter fence each year.

Reserve Requirements: Colorado law requires HOA's to maintain a Reserve based on a percentage of their assets, the types of assets and the age. Buffalo Creek has met and maintains our required Reserve for replacement, and repairs. The Reserve goal and balance is noted on the Budget sheet.

ARC Requests: Any change to the exterior of your house, property, and landscaping needs to have Architectural Review Committee (ARC) approval. Give us a few weeks prior to your project to get the approval process completed. Dumpsters require a variance stating size, dates of delivery and pick up. All dumpsters require placement in the driveway.

Go to the website: www.buffalocreekhoa.com, find the ARC form, fill it out and email or mail it back to the ARC Committee, arc@buffalocreekhoa.com and send a copy to the HOA Manager; singewald@aol.com (Sometimes the website does not forward the email to ARC members and we want to strive to be timely in response.) The ARC committee will go over your request to make sure that everything falls within the HOA Covenants and Site Restrictions. (This is our way of helping make sure that you do not end up investing time and money in a project that is not allowed under HOA guidelines.) The ARC Committee is there to help you so you do not have to read through a hundred pages of documents to determine if your project is approvable.

Snow Removal: Every year there are questions about snow removal requirements. The landscape company has contracted for the snow removal of the HOA Common Area sidewalks. The Town does the snow removal on the streets. Homeowners are required to remove the snow on their sidewalk along their property within 24 hours of the snow fall.

Home Sales: Currently it looks like we have about 12 homes listed for sale in the HOA with contracts on 4 of them waiting to close. In 2024 we had 12 homes sold. In 2025 we had 22 homes sold, with 11 of those in the last two months. Average sales prices look fairly strong at \$482,700.00.

Congratulations: We hope you were able to attend a High School football game this year. Congratulations to our Wellington High School who took State in the Class 2A High School Championship beating Elizabeth, Colorado (35-0). After 11 games the Wellington Eagles scored a total of 475 points, giving up 55. (One game was a forfeit so they only got 2 points in their win column.) Even with that 2-point game, they averaged outscoring their opponents about 40 points a game. Great job Eagles. We are so proud of our new High School. Get out and enjoy a game next year, it's a good time.

BUFFALO CREEK ARCHITECTURAL STANDARDS		16

RESIDENTIAL IMPROVEMENT GUIDELINES AND SITE RESTRICTIONS FOR BUFFALO CREEK

I. INTRODUCTION.

1.1. Basis for Guidelines – These Residential Improvement Guidelines and Site Restrictions ("Guidelines") are intended to assist homeowners in Buffalo Creek in the design of their homes, landscaping, and other improvements to their property as provided for in the Covenants and to list the rules and regulations adopted by the Homeowners Association with respect to the use of residential sites.

THE COVENANTS FOR BUFFALO CREEK REQUIRE APPROVAL FROM THE ARCHITECTURAL REVIEW COMMITTEE BEFORE ANY IMPROVEMENT TO PROPERTY IN BUFFALO CREEK COMMENCES.

"Improvement to Property" is very broadly defined in the Covenants. For instance, an "Improvement to Property" could include any landscaping or change of the grade of property; the construction or installation of any accessory building, patio, deck, pool, or hot tub; the demolition or removal of any building or other improvement; and any change of exterior appearance of a building or other improvement. In order to assist homeowners, the Covenants authorize the Architectural Review Committee ("ARC") to establish guidelines, to establish certain pre-approved designs for several types of improvements to property, and to exempt certain improvements to property from the requirement for approval. This booklet contains the guidelines established by the ARC with respect to residential property. Throughout this document, the term "Property" shall refer to a residential site. The term "written approval" includes both paper and email-based notification of communications.

1.2. Contents of Guidelines – In addition to the introductory material, these Guidelines contain: (a) a listing of specific types of improvements, which homeowners might wish to make with specific information as to each of these types of improvements; (b) rules and regulations applicable to residential sites; and (c) a summary of procedures for obtaining approval from the ARC.

1.3. Architectural Review Committee – The ARC consists of not more than three (3) persons who are appointed by the Board of Directors.

1.4. Committee Address and Phone – The address of the ARC will be the same as the address of the Management Company for the Homeowners Association. The present address of the ARC is Buffalo Creek HOA, Buffalo Creek Management LLC, PO Box 1182, Wellington, CO 80549 Phone: (970) 568-3170 Management Email: singewald@aol.com ARC Email; arc@buffalocreekhoa.com

1.5. Effect of Covenants and Resource Management Plan – The Declaration of Protective Covenants, Conditions and Restrictions for Buffalo Creek and applicable Supplemental Declarations (jointly "Covenants") govern property within Buffalo Creek. Real estate will become part of the Homeowners Association by annexation pursuant to a supplemental declaration. Copies of the Covenants are delivered to new homebuyers when they purchase their homes and are available at any time, on the Website (www.buffalocreekhoa.com), or at the ARC office. Each homeowner should review and become familiar with the Covenants. Nothing in these Guidelines can supersede or alter the provisions or requirements of the Covenants and, if there is any conflict or inconsistency, the Covenants shall control. Provisions relating to the use of Property and to improvements to Property are found in the Covenants.

1.6. Effect of Governmental and Other Regulations – Use of Property and improvements to Property must comply with applicable building codes and other governmental requirements and regulations. Approval by the ARC will not constitute assurance that improvements comply with applicable governmental requirements or regulations or that a permit or approvals are not also required from applicable governmental bodies. For general information about Town of Wellington requirements, homeowners may write or call the Town of Wellington. (970) 568-3381

1.7. Utilities – In making improvements to Property, homeowners are responsible for locating all water, sewer, gas, electrical, cable television, or other utility lines or easements. Homeowners should not construct any improvements over such easements without the consent of the utility involved and homeowners will be responsible for any damage to any utility lines. All underground utility lines and easements can be located by contacting the following entities:

A spirit of cooperation with the ARC and neighbors will go very far in creating an optimal environment, which will benefit all homeowners. By following these Guidelines and obtaining approvals for improvements to Property from the ARC, homeowners will be protecting their financial investment and will help ensure that improvements to Property are compatible with standards established for Buffalo Creek. II.SPECIFIC TYPES OF IMPROVEMENTS - GUIDELINES.

- 2.1. **General** – Following is a list of restrictions and improvement guidelines.

**UNLESS OTHERWISE SPECIFICALLY STATED,
DRAWINGS OR PLANS FOR A PROPOSED IMPROVEMENT
MUST BE SUBMITTED TO THE ARC
AND
WRITTEN APPROVAL OF THE ARC OBTAINED
BEFORE
THE IMPROVEMENTS ARE MADE.**

(Submittal form is available on Website)

Most changes to the exterior of your property requires an ARC Improvement Request form to be filled out and submitted to ARC for approval. ARC Improvement Request forms should receive a response back within 30 days, however if you do not get a response back within 5 days, please send a follow up email confirming that ARC did receive your request. Complicated issues which need to go to the Board, or the Homeowners at an Annual Homeowners meeting will take longer. If you do not receive notice back in 30 days, you should consider this as a non-approval.

- 2.2. **Accessory Buildings** – Not permitted unless approved by the ARC. (See Sheds and Storage Units)

- 2.3. **Additions and Expansions** – ARC approval required. Additions or expansions to homes will require submission of detailed plans and specifications. (See also Building Plans).

- 2.4. **Advertising** – See Signs.

- 2.5. **Air Conditioning Equipment** – Air conditioning equipment, swamp coolers, and evaporative coolers shall be installed in the side or rear yard, be screened from view of adjacent property owners, and installed in such a way that any noise to adjacent properties is minimized. Air conditioning in a window of the house, swamp coolers, and evaporation coolers are permitted, but must be approved by the ARC; they cannot face the front of the house. When possible, steps should be taken to reduce the visibility of the window-based air conditioner, swamp cooler or evaporative cooler from the view of the front of the house.

Free standing, portable basketball boards may be used, but must comply with city regulations. Previously all moveable basketball hoops were required to be stored out of site while not in use. - Approve or disapprove the plans as required by the Covenants, in writing, on the builder's or owner's set of plans and specifications.
- Failure of the ARC or designated representative to approve or disapprove plans and specifications within 30 days of submittal shall be interpreted as disapproval. Deemed approval shall only apply when matters specifically and sufficiently described in plans and specifications are submitted to, and received by, the ARC and are in full compliance with the Covenants and Guidelines.
- All buildings and improvements shall follow the letter of the plans and specifications submitted and approved by the ARC. **Any changes to approved plans will require the re-submission and additional approval of the ARC.**

This is not to be confused with

“zero-scaping,” where the landscape consists of rocks and other hardscapes, with very few or no plantings. Xeriscaping is not a ‘natural area’ and, while some decorative native species that are drought tolerant might be incorporated into the area, it is not an area that is free from the requirement of regular maintenance (pruning, weeding, etc.) Zero-scaping is prohibited beyond that which existed from the original build and landscaping (large aggregate beds between properties).

- 2.68.3** On average, there must be one group for every 100 square feet (10’ x 10’) of Xeriscaped area. A group is defined as three (3) or more plants and collectively, one quarter of the groups must contain or consist of mature plants (4 groups of 3 plants = 3 mature plants minimum.) Please see <http://www.ext.colostate.edu/ptlk/1907.html> for plant types recommended for Colorado Xeriscaping.
- 2.68.4** Artificial turf or plants are prohibited.
- 2.68.5** Weeds and unplanned growth must be removed promptly.
- 2.68.6** All landscape materials must be installed in a manner which prevents them from blowing or washing away and in such a way as to not interfere with the established watershed paths.
- 2.68.7** The ARC reserves the right to approve or reject plans on a case-by-case basis.

Types of Disputes

1. Matters involving past due assessments are not ordinarily considered disputes subject to this Policy. Rather, these are considered matters to be handled in accordance with the Policy for Collection of Unpaid Assessments. If any Owner claims that payment of assessments should be excused or offset by any alleged act or omission of the Association, such Owner’s claim will be considered a dispute subject to the procedures in this Policy.

Violator request will be determined by postmark or email date and time sent.

6. **Continued Violation After Initial Warning Letter** – If the alleged Violator does not come into compliance within fourteen (14) days of the first warning letter, this will be considered a second violation for which a fine may be imposed following notice and opportunity for a hearing.
